

# Vault Account

The institutional-grade cold storage solution offering complete control and flexible access using a tailor-made multi-approval process for a wide range of crypto assets.

## Institutional-Grade Cold Storage Solution

The Bitcoin Suisse Vault solution is redundantly built and features highest physical and cryptographic security standards including EMP protection. Client-specific security features include withdrawal address restrictions, custom time-delays and multi-signing processes. Flexible approval policies enable optimized approval workflows for institutions. Including roles to request, cancel and approve transactions. Bitcoin Suisse Vault Account is offered as Storage-as-a-Service via a user-friendly web-portal.

The solution and the key generation process have been independently audited since 2018 by PwC, Grant Thornton and Zühlke Engineering and is documented in ISAE 3402 audit reports. Internal and external penetration tests are performed regularly.

## Our Offering

- Flexible account set-up, including multi-approval processes
- Self-service withdrawals by persons authorized by the clients for complete control of the crypto assets
- 24/7 access to the Vault Account
- All crypto assets are stored on segregated personal blockchain addresses
