

Bitcoin Suisse Vault

Peace-of-mind for crypto asset custody

Customizable, banking-grade cold storage solution offering complete control and flexible access using a tailor-made multi-signing process for a wide range of crypto assets. Clients control the crypto assets while Bitcoin Suisse manages the private keys.

Banking-Grade Cold Storage Solution

The Bitcoin Suisse Vault solution is redundantly built and features highest physical and cryptographic security standards including EMP protection. Client-specific security features include withdrawal address restrictions, custom time-delays and multi-signing processes. Flexible approval policies enable optimized approval workflows for private clients and institutions. Including roles to request, cancel and approve transactions. Bitcoin Suisse Vault is offered as Storage-as-a-Service via a user-friendly web-portal.

The solution and the key generation process have been independently audited by PwC, Grant Thornton and Zühlke Engineering and is documented in ISAE 3402 audit reports. Internal and external penetration tests are performed regularly.

Our Offering

- **Flexible account set-up**, including multi-signing processes tailored to client's needs
- **Self-service withdrawals** by persons authorized by the clients, giving clients complete control of their crypto assets without personally managing private keys
- Banking-grade cold storage as a service: **No setup fee**
- **24/7 access** to the Bitcoin Suisse Vault service
- All crypto assets are stored on segregated personal blockchain addresses, **eliminating counterparty risk for clients**
- Allowing clients to store **wide range of crypto assets**: BTC, ETH, DOT, ADA, ATOM, KSM, XRP, BCH, BSV, LTC, BTG, TRX, THETA, XTZ, EWF as well as all Ethereum ERC-20 and Tezos FA1.2, FA2 tokens
- **Staking operations** are supported for ADA, ATOM, DOT, KSM and XTZ, delegating to BTCS or external validators
- **Message signing** for Proof of Ownership

Fees and Terms

- No set-up fee
- No minimum volume required
- Storage fee: 0,4%-0,6% per annum (calculated on a daily basis)
