**Bitcoin Suisse Ltd**

Dear Mr Hodel,

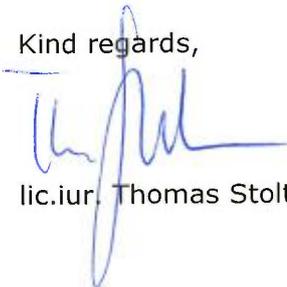

I herewith confirm that, in my capacity as civil law notary of the Canton of Zug, I have performed on 5 August 2019 a public notarization in connection with the creation of paper wallets for cryptocurrencies ("crypto certificates") by members of Bitcoin Suisse Ltd's staff. In particular, the perceptions made with regard to

- key generation
- digital printing
- preparation of disposal of hardware components
- transfer of transport boxes

were recorded in a public deed.

The original public deed will not be made publicly available, due to the confidential, sensitive nature of data, including variables and comprehensive personal data, contained therein and for the protection of the persons involved.

Kind regards,

lic.iur. Thomas Stoltz, attorney-at-law, LL.M.
